

Pro Detail GL Link

This mod allows you to control the text that is shown in the description of the journal entry. For instance, you can see the customer or vendor name, with or without their ID, order number, priority, transaction category, or any other information available at posting time. Works with detail GL posting only.

This modification is built to order, based on your choice of data.

Pro Series 5.0, 6.0 all builds
Suggested retail \$495
